

SOUTHEASTERN ELECTRIC COOPERATIVE, INC.
1514 E. HWY 70
DURANT, OK 74701

What Members Need To Know –

FIRST! Members should call their SEC Member Services Department and seek advice on all the Pros & Cons of making an investment in Solar!

Call (580) 745-9463

If you believe Solar is the right option for your home, then:

Members should familiarize themselves with Southeastern Electric Cooperative, Inc. (SEC) **Distributed Generation Procedures & Guidelines Manual for Members**. [Can be viewed at www.se-coop.com.]

For qualifying residential solar array systems less than 30 kW-DC and not to exceed 125% of the consumer's peak load:

1. Member should contact SEC, prior to the installation, to request all necessary documents to enter into a Net-Metering Agreement with the Co-op. Member will need to provide (via phone or in-person) Co-op with an overview of the planned solar installation. [Net Metering Agreement is pages 18 – 21 in the **Manual**.]
2. Member will need to have the Solar Vendor fill out *Application for Operation* pages 30, 31 and 34 of the **Manual** and provide them back to the Member to include with their Net Metering Agreement.
3. For the purpose of a cost or ROI analysis, SEC currently has a \$24.50 monthly Customer Charge, and a Rate Rider of \$8.50 on all Net Metered accounts. A Net Metered billing account will have a monthly minimum of \$33.00. [SEC Rates are available at www.se-coop.com.]
4. Member or Solar Vendor **should not** operate or inter-connect to the distribution grid without a Permission to Operate (PTO) certificate. The certificate will be issued electronically after the Inter-Connect Inspection and new Net Meter has been provided by the Co-op.

For qualifying residential solar array systems greater than 30 kW-DC and less than 300 kW-DC and not to exceed 125% of the consumer's peak load:

5. Member should contact SEC to request all necessary documents to enter into a Net-Metering agreement with the Co-op. [Net Metering Agreement is pages 18 – 21 in the **Manual**.]
6. Member will need to have the Solar Vendor fill out *Application for Operations* pages 30 thru 34 of the **Manual** and provide them to them back to the Member to include with their Net Metering Agreement.
7. For the purpose of a cost or ROI analysis, SEC currently has a \$24.50 monthly Customer Charge, and a Rate Rider of \$8.50 on all Net Metered accounts. A Net Metered billing account will have a monthly minimum of \$33.00. [SEC Rates are available at www.se-coop.com.]
8. Member or Solar Vender **should not** operate or inter-connect to the distribution grid without a Permission to Operate (PTO) certificate. The certificate will be issued electronically after the Inter-Connect Inspection and new Net Meter has been provided by the Co-op.

For qualifying non-residential solar array systems less than 300 kW-DC and not to exceed 125% of the consumer's peak load: ***Member must contact their SEC Member Services Department at (580) 745-9463.**
