Coal•Johnston Counties

Don't Miss the 79th Annual Meeting!

We hope that you have received your Official Annual Meeting Notice in the mail already, but just in case you haven't we want to be sure you are in the loop!

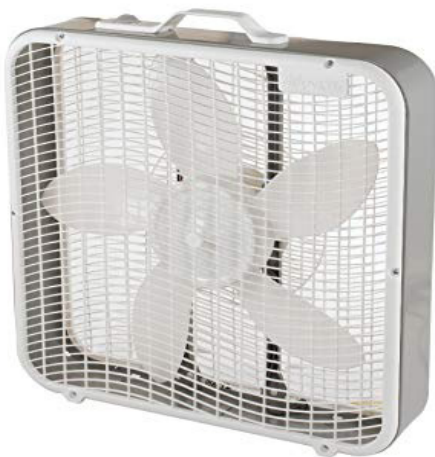

SEC will be holding their 79th Annual Meeting of the Cooperative on Tuesday, August 7th, 2018. It will take place at the Durant High School on Gerlach Drive.

As we mentioned before, the schedule will be a bit different than prior years. SEC's goal with the

Expanded Format is to encourage greater attendance and to accommodate more of the members who work that day and have had trouble in the past participating with our previous registration time constraints.

*We also want our Members to note that if you are registering with an entity (such as a church or business) you **MUST come with your Official Notice for that business**, which you would have received in your mailbox on or around July 28th.*

Rebates & Box Fans-Keeping Members Cool During the Summer

There are still several rebates available through the Co-op that can help with keeping you cool this summer!

We are currently offering a rebate of up to 30% (not to exceed \$150) of the cost on an Energy Star window unit. All units must be Energy Star certified and limited to one qualifying purchase per Member every three years.

Visit www.se-coop.com and click on the Rebates tab to print the form. Once completed, return the application in to the Co-op along with your purchase receipt before November 30th, 2018.

Are you a Senior Member of the Co-op aged 60 or older? Do you know someone who is? You or a senior you know could qualify for a FREE box fan! To qualify, you must be 60 years or older or be getting one on behalf of someone who is. The recipient must be a Member of the Co-op. These fans will be available on a first-come-first-serve basis. Please call 580-745-9463 or come by the Co-op.

High Usage Alerts Available to You!

High bills are never a good surprise. Now, you can get an alert sent to you on a daily schedule to make you aware of when you have used a higher than normal amount of kilowatts during a 24 hour period.

You can receive a text, e-mail or voice alert when a day occurs where you reach your threshold, or what you consider to be an excessive amount of kWh usage for your residence. We suggest setting that threshold at \$5 since any amount over that per day would be considered "above average" usage.

Your meter is read daily and the alerts will generally come between the hours of 8:00 a.m. and 9:00 a.m. They will reflect what was used the previous day if you went over your set threshold. This can give you a heads-up that you may want to monitor and lessen your energy consumption by adjusting the thermostat or turning down space heaters on days where the outside temperature is similar.

This is a FREE alert system offered to you by your Cooperative. We hope that this will help Members who experience high bills save during the colder and warmer months! To sign up please call the office at 580-924-2170 today!
